EXPERIENCE

Burger King Cataño, Puerto Rico
Emerging Technology Specialist Jun 2022 – Present

Analyzed existing point-of-sale system for 175 restaurants; proposed and secured approval for the replacement multimillion dollar system. Specified a new drive-thru remote order taking system designed to increase labor efficiency, increase upsell opportunities, increase income, and reduce costs.

Embodee San Juan, Puerto Rico
Software Engineering Co-op Aug 2019 – Dec 2019

Programmed a library extension for virtual experience software serving clients including Adidas and Nike. Worked with Javascript and GLSL.

Software Engineering Intern Jun 2018 – Aug 2018

Developed algorithms and implemented features into virtual experience software serving clients including Adidas and Nike. Worked with Python, Cg, Unity, XML, Matlab, and C#.

C Cubed San Juan, Puerto Rico
Web Development Intern Jun 2017 – Aug 2017

Built websites and custom software: assisted the full cycle development process including design, coding, implementation, and deployment. Used PHP, JavaScript, jQuery, MySQL, HTML5, and CSS.

Burger King Cataño, Puerto Rico
Information Technology Intern Jun 2016 – Aug 2016

Internship at the local franchise headquarters working with their technology and internal systems department: implementing and managing Tableau for AS400, conducting business analytics for 175 restaurants.

EDUCATION

Rensselaer Polytechnic Institute Troy, New York
Computer Science/Cognitive Science Aug 2016 – Mar 2020

Saint John's School San Juan, Puerto Rico
Highschool Diploma Aug 2012 – May 2016
